12-14 October 2022
Hanover

2022 EUHA Congress: Online now – the new EUHA app

(Frankfurt/Mainz, 29 September 2022) The EUHA app has been completely redesigned and now has more features. The EUHA app provides participants with the latest information about the 2022 EUHA Congress ready at their fingertips! In this way, they can plan their visit to the Congress in advance. The app contains details about the programme, the lecturers, delegates can plan their appointments, and be reminded of important events. The app facilitates networking, creating your own profile, chatting with others, and quickly finding all relevant contacts via matchmaking. It also provides orientation when visiting the exhibition stands in Hall 6.

Content can be shared via the new EUHA app: for instance, photos that are saved in the gallery can be shared directly via social media. Users may also upload or link documents such as abstracts.

Users will receive up-to-date information via push notifications and via the news posts in the app. The EUHA app makes participation in the Congress a comfortable experience, and is available free of charge in the relevant stores on the internet. Extra tip: as the app has been reconfigured, downloading the new version to the smartphone again is mandatory.
