

Wednesday, 16 October 2024

09:00 – 17:00 h	Industry exhibition
09:15 – 09:45 h	Congress opening on the EUHA-Live Area stage in the industry exhibition
11:00 – 11:30 h	get-together before the beginning of the lecture programme
11:30 – 13:30 h	Knowledge Symposium
	Lecture: <i>Prof. Torsten Dau, Lyngby (Denmark)</i> “Emerging trends in technical compensation strategies for hearing aids”
	Award ceremonies for the EUHA Sponsorship Award and for the FDHA Awards
13:30 – 14:00 h	<i>Dr. Hendrik Husstedt, Lübeck</i> “Listening effort for soft speech in quiet”
14:00 – 14:30 h	BREAK
14:30 – 15:00 h	<i>Dr. Jan de Laat, Leiden (Netherlands)</i> “Music experience by hearing impaired subjects”
15:00 – 15:30 h	<i>Artjom Brikmann, Koblenz and Dr.-Ing. Jan Helmig, Essen</i> “Quality and efficiency thanks to digitisation: The new BVHI platform for digital product data catalogues”
15:30 – 16:00 h	<i>Dr. Martin Kinkel, Burgwedel</i> “How intelligent are ‘intelligent’ hearing aids? An update”
16:00 – 16:30 h	<i>Tobias Gröbe, Neuss</i> “Fitting of hearing aids with consideration of special requirements at the workplace (using the example of operating room employees in hospitals)”
16:30 – 17:00 h	<i>Daniel Rützel, Planegg</i> “The SII – a simple tool for good speech intelligibility”
17:00 – 18:00 h	Rounding off the first day of the congress at the EUHA-Live Area in the industry exhibition
19:30 h	FGH evening

Thursday, 17 October 2024

09:00 – 17:00 h	Industry exhibition
09:30 – 10:15 h	<i>Prof. Tobias Neher, Odense (Denmark)</i> “Detection and prevention of rollover at above-conversational speech levels”
10:15 – 10:45 h	<i>Dr. Matthias Latzel, Stäfa (Switzerland)</i> “Noise reduction with AI: Just marketing or a real benefit for the hearing aid user?”
10:45 – 11:15 h	<i>Christopher Slugocki Ph. D., Illinois (USA)</i> “Using EEG to explore the benefits of signal processing towards communication success”
11:15 – 11:45 h	<i>Prof. Dr.-Ing. Dr. rer. med. Ulrich Hoppe, Erlangen</i> “Unilateral vs bilateral evaluation of speech recognition in CI candidates”
11:45 – 12:15 h	<i>Prof. Dr. Anke Lesinski-Schiedat, Hanover</i> “Surgical and audiological outcome with an active transcutaneous bone conduction device in very young children”
12:15 – 12:45 h	<i>Dr. Jakob Kümmel M. A., Dublin (Ireland)</i> “Navigating the complexity of tinnitus exacerbation: A scholarly approach”
12:45 – 13:15 h	<i>Dr. Florian Schmidt, Rostock</i> “Influence of tone decay on speech recognition in moderate to profound hearing loss”
13:15 – 14:00 h	BREAK
14:00 – 14:30 h	<i>Megan Quilter Au. D., Illinois (USA)</i> “Enhancing patient outcomes with Ecological Momentary Assessment: Insights from a premarket trial”
14:30 – 15:00 h	<i>Dipl.-Ing. Siegrid Meier M. A., Krummesse</i> “Optimised hearing aid provision for infants: Interdisciplinary collaboration focusing on paediatric audiology, paediatric acoustics and early intervention”

DAY 2:
68th International
Congress of Hearing aid acousticians

Thursday, 17 October 2024

15:00 – 15:30 h

Andrew Bellavia M. A., Illinois (USA)

“Understanding and addressing hearing loss stigma in context of larger cultural factors”

15:30 – 16:00 h

Dipl.-Ing. Horst Warncke, Hamburg

“40 years of technical progress – is everything really new?”

16:00 – 16:30 h

Dr. Birgitta Gabriel, Ellerbek

“Decisive steps from store manager to manager with charisma”

17:00 – 19:00 h

General meeting of the biha (members only)

19:00 h

Congress Get-together (EUHA, BVHI, FDH)

CONGRESS GET-TOGETHER
17 October 2024, from 7 pm
#congressgettogether #euha2024

Thursday, 17 October 2024

09:30 – 11:00 h

Lecturer: Prof. Dr. Anke Lesinski-Schiedat, Hanover

TUTORIAL 1:

"40 years of CI - how complex is it?"

12:30 – 13:00 h

Lecturer: Prof. Dr. Dr. Gerhard Goebel, Prien am Chiemsee

TUTORIAL 2:

"Hyperacusis and misophonia: Two completely different and poorly understood symptom areas in audiology and psychosomatics"

13:30 – 15:00 h

Lecturers: Dr. Birgitta Gabriel, Ellerbeck; Corinna Ruhl B. Sc., Mainz-Kostheim

TUTORIAL 3:

"Typical customers! Properly advising exceptional customers"

15:30 – 17:00 h

Lecturer: Dennis Alter, Dresden

TUTORIAL 4:

"Navigating in an era of uncertainty: The essence of modern leadership skills in the age of skilled labour shortage"

EUHA APP 2024

With the app, you have all the information about #EUHA2024 at your fingertips.

For optimal planning of your visit and your daily companion.

Available soon in all stores.

Friday, 18 October 2024

09:00 – 14:00 h

Industry exhibition

09:30 – 10:00 h

Dr. Dirk Oetting, Oldenburg

“Speech intelligibility in quiet noise and loudness perception for quiet signals”

10:00 – 10:30 h

Prof. Dr. Gregor Hohenberg, Hamm

“A digital platform for the case management of patients with dementia and associated hearing loss”

10:30 – 11:00 h

Ing. Sascha Bilert M. Sc., Erlangen

“An audiological journey towards hearing aids for conversational support”

11:00 – 11:30 h

Prof. Dr. Josef Kessler, Cologne

“How to assess the cognitive status of people with hearing loss?”

11:30 – 12:00 h

Beat Graf, Zurich (Switzerland)

“Bluetooth Auracast in practice”

12:00 – 12:30 h

Dr. jur. Bridget Dobyan B. A., Washington (USA)

“State of the US market – 2024”

12:30 – 13:00 h

Sara Burdak Au. D. und Michelle L. Hicks Ph. D., Minnesota (USA)

“Hearing technology as the gateway to living healthy, safe, and independent lives”

13:00 – 14:00 h

BREAK

14:00 – 14:30 h

Theresa Schleicher, Berlin – Future Friday Keynote

“Future Retail in the city center? The next generation for retail specialists”

14:30 – 15:00 h

Priv.-Doz. Dr. med. Benedikt Höing, Essen – Future Friday Keynote

“Who benefits from a cochlear implant? Using artificial intelligence and machine learning to predict hearing outcome after cochlear implantation”

Friday, 18 October 2024

15:00 – 15:30 h

Sergi Rotger-Griful, Ph. D., Snekkersten (Denmark) – **Future Friday Keynote**
“Understanding Communication Challenges in People with Hearing Loss: Insights and Future Directions for Audiological Applications”

15:30 – 16:00 h

Prof. Dr. David Matusiewicz, Essen – **Future Friday Keynote**
“The digital transformation in the hearing acoustics industry”

16:00 – 16:15 h

Closing remarks, farewell

09:30 – 11:00 h

Lecturers: Dr. Melanie Krüger, Oldenburg; Christoph Stinn, Sugenheim
TUTORIAL 5:
“Measuring hearing effort with ACALES in practice – successful collaboration between science and hearing acoustics in specialised shops”

Subject to change without notice!
