## **#EUHA 2025: Register exhibition stands and submit presentation topics now!**

(Frankfurt am Main/Münster 20 February 2025) **Here we go again! Since 12 February 2025, companies can register a stand space at the industrial exhibition of the 69th International Congress of Hearing Aid Acousticians from 22-24 October 2025 in Nuremberg at [www.ausstellung-euha.org/en](http://www.ausstellung-euha.org/en). On the first day alone, more than 20 companies have already registered their stand spaces.**

This year, the industry exhibition will take place in a new hall (No. 7) due to the requirements of the Nuremberg Exhibition Centre. As usual, admission will be via the NCC Ost (Congress Centre). Access will be via Hall 7a, where catering areas and information points for visitors are also planned. Following the successful launch of the EUHA Live Area last year, EUHA e.V. and BVHI are continuing the concept. The EUHA Live Area with a short programme and networking opportunities will be centrally located in Exhibition Hall 7.

### **Call for Papers**

Experts have the unique opportunity to present their research results, findings and innovations to a large audience at the EUHA Congress 2025. Beate Gromke, President of the European Union of Hearing Aid Acousticians, is calling for current topics to be added to the congress programme: 'Use the world's largest hearing acoustics event to present your work to the scientific community, hearing acousticians and the leading international companies in our industry. The congress is the most important professional source of inspiration for hearing acoustics and the hearing system industry. Be part of it!'

Proposals for the scientific lecture programme can be submitted until 25 April 2025. Topics from the categories 'Research & Science', 'Practice', 'Marketing & Communication' and 'Health Policy & Future' are welcome. Presentation proposals can be submitted online at [www.euha.org/lecture/euha-congress](http://www.euha.org/lecture/euha-congress).
