EUHA Congress 2026: Submit your presentations now!

(Münster, 20 January 2026) The date for the 70th International Congress of Hearing Aid Acousticians has been set! The world's largest hearing care professionals congress is celebrating its anniversary this year and will take place in Hanover from 14 to 16 October 2026. The congress thrives on knowledge transfer, personal exchange and the industry exhibition. Presentations for the specialist scientific programme can be submitted until 31 March 2026.

The EUHA welcomes contributions on the following topics:

- CI care (diagnostics, indication, care)
- Hearing system technology (how hearing systems work, new algorithms and signal processing strategies)
- News from the field (therapy, hearing system fitting)
- News from hearing research (physiology, diagnostics)
- Paediatric audiology (care and requirements, experience and exchange)
- Special care in hearing acoustics
- Technology and the future
- Trends and developments in hearing aid care (care processes, new devices and systems)
- Miscellaneous: corporate governance, corporate development, strategic management, business management, operational management, entrepreneurial thinking for hearing care professionals, corporate governance made easy: tools and approaches

Presentation proposals can be submitted online at:
