Experience confident audiometry for every setting - live at EUHA

From October 14–16, Hanover will welcome the global hearing care community for the world's largest event for hearingcare technology. Visit Amplivox at Booth 557, Hall 6, to discover our screening and diagnostic solutions.

Taking centre stage at this year's event is Anova™, our latest screening and diagnostic audiometer built for everyday testing.

Anova™ is reliable, intuitive and designed around practical testing needs. It helps hearing health professionals deliver accurate results with confidence wherever testing takes place.

Backed by over 90 years of trusted expertise, Anova™ reflects Amplivox's commitment to dependable solutions that make high-quality hearing care more accessible.

Join us at Booth 557, Hall 6, to experience how Anova™ can bring greater accuracy, confidence and ease to routine hearing assessments.
