

Hansaton Essenz

Hear the essence of life

Right from the start, your clients benefit from the advanced capabilities of HearIntelligence 6.0, with Hansaton Essenz sound processing powered by the innovative ERA™ chip.

Highlights:

- The **AI-trained** automatic program, **Intelligent AutoSurround**, ensures rapid, seamless optimization for each listening situation.
- **Bringing conversations to life in noisy environments** with StereoBeam, now including Intelligent NoiseReduction and Directional SpeechBoost.
- **Let quiet voices be heard** with Soft SpeechBoost, reducing listening effort, minimizing fatigue, and improving speech intelligibility for distant and soft talkers.[1]

sound E-R (RIC)
Beautifully designed

jazz E-R (ITE)
Rechargeable and wireless

jazz E-10 NW 0 (ITE)
Tiny and discreet

Universal connectivity:

- **Stable connectivity** to enjoy uninterrupted hands-free calls and streaming.
- **Ultra-responsive ERA chip** to allow effortless switching between your client's favorite music and their favorite person.
- **Extended range** for connectivity up to 2x the distance enabling a whole new freedom of movement.

Energy for the whole day![2]

Easy-to-use chargers for RICs and ITEs
With magnetic hearing aid connection for full power from dawn to dusk
