WIDEX TINNITUS SOLUTIONS

TINNITUS SUPPORT. LED BY YOU.

Proven Zen sound stimulation, wearer support and counseling resources, brought together to help you confidently support individuals with hearing loss and tinnitus.

NOW ON ALLURE

"I want to help wearers who suffer from tinnitus, but I need it to fit into my everyday workflow."

Widex Tinnitus Solutions brings together tools for HCPs and wearers, making proven Zen programs and tinnitus support more visible and accessible throughout the hearing care journey.

Zen Programs Widex Compass Cloud

Quickly access proven Zen sound stimulation programs directly within the fitting workflow.

Wearer Support ALLURE App

Wearers can explore Zen styles, adjust ZEN style volume, and access helpful tinnitus information in the ALLURE app between appointments. No additional app required.

New Counseling Tools one.wsa.com

Access digital and interactive resources to support meaningful tinnitus conversations.

Widex Tinnitus Solutions give you tools to guide tinnitus support while helping wearers engage with their Zen listening experience between appointments.

PROVEN SUPPORT FOR TINNITUS PATIENTS (with MOMENT platform)*

12 **POINTS**
mean THI (Tinnitus Hearing Inventory) reduction at 6 months

32% **REDUCTION**
In tinnitus distress

* Data from Lelic et al. (2024) Frontiers in Audiology and Otology. Benefits reported tinnitus patients using self-selected Zen sound therapy styles on Moment devices.

A PROVEN SOUND STIMULATION STORY, NOW EASIER TO BRING INTO EVERYDAY CARE.

Four practical ways Widex Tinnitus Solutions support everyday tinnitus care.

UNIQUE FRACTAL TONES

Smooth, non-repeating musical-like tones designed to gently engage attention without active listening.

CHOICE OF ZEN STYLES

Fractal, combination, nature and noise styles support different patient preferences.

APP PERSONALISATION

Patients can adjust Zen style and volume between appointments in the Allure app.

HCP-LED SUPPORT

Counselling content and app guidance help reinforce the conversation after the visit.
